

## **what** are the most common and used resolutions?

i will make usage of (**Shaun Anderson's, 2023**) analysis which says that the design should be from 360x640px to 1920x1080px.

**desktop**: from 1024x748px to 1920x1080px.

**mobile**: from 360x640px to 414x896px.

**tablet**: from 601x962px to 1280x800px.

## **what** are the most optimal font sizes for different screens?

i will make usage of (**Font Size Guidelines for Responsive Websites, 2021**) analysis which provides different font sizes for different screens.

**desktop**: body text from 16px to 18px; headings 35px; subheadings 30px.

**mobile**: body text from 14px to 15px; headings 21px; subheadings from 16px to 18px.
